SHOGUN INFERNO

7" HDR Pro/Cinema Monitor-Recorder

For in-the-field pro video & on-set production

The complete video production tool

Atomos Shogun Inferno is Atomos' workhorse HDR monitor-recorder designed for the film and video professional. As a combined recorder and monitor, Shogun Inferno takes full advantage the camera's sensor to capture shots to their fullest color and dynamic range. Frame and capture the perfect shot on-set and ready for seamless editing in the studio in ProRes and other industry standard formats.

- Record ProRes RAW to preserve your camera sensor's pristine pixels.
- Capture from any camera or digital video source via SDI or HDMI.
- Extensive monitoring tools including custom 3D LUTs.
- Balanced XLR monitor and record eliminates need for audio recorder.
- Vibrant 1500nit 7" screen with 4K input nails focus and exposure in any lighting conditions.

SHOGUN 7

7" HDR Pro/Cinema Monitor-Recorder-Switcher

For in-the-field pro video & on-set production

Unbelievable HDR

Atomos Shogun 7 is a precision HDR monitor-recorder-switcher designed for the film and video professional. It can be used as either a stand-alone field monitor, recorder and switcher for event, documentary and live in-the-field storytelling; or as a tool for large-scale on-set episodic TV, film and cinema productions where multiple crew members such as focus pullers, grips and cinematographers require a consistent visual reference across the field monitor ecosystem. With Shogun 7 you're not locked into any format, camera manufacturer or pipeline. It is a completely flexible master recording and production station.

- 1,000,000:1 contrast ratio for exceptional detail.
- Real-time 4K recording in formats including ProRes RAW.
- AtomOS real-time production tools and Dolby Vision play out.
- Real-time switching between 4 live video streams.
- 3000nit peak brightness.
- Supports RAW and video capture from cameras including Canon, Panasonic, Sony and RED.
